STANDARD RATE SCHEDULE	Industrial 1 (I-89)	Rate 410
<p>(Continued from sheet # 16.)</p> <p><u>DETERMINATION OF BILLING DEMAND:</u> The Billing Demand upon which the Demand Charge is based shall be the average number of kilowatts of consumer's demand during the period of fifteen (15) consecutive minutes in which the consumer's consumption of electric energy is greater than during any other fifteen (15) consecutive minutes during the month determined by suitable measuring instruments installed and maintained by the Cooperative. Provided, however, that in computing charges for service under this rate no bill for any month shall be based on less than ninety percent (90%) of the highest maximum demand established during the preceding months of June, July, August, and September, or 1000 kW.</p> <p><u>PRIMARY SERVICE DISCOUNT:</u> The Cooperative reserves the right to refuse delivery of power at primary voltage to any consumer. However, with the Cooperative's consent for delivery of power to a consumer at primary voltage, a discount of five percent (5%) of the net monthly bill, computed before the adjustment for the cost of purchased power, will be allowed when the following conditions are met:</p> <ol style="list-style-type: none">1. The consumer takes service at a voltage level of 7,620/13,200 volts or higher2. The consumer installs, owns, operates, and maintains all equipment on the consumer's side of the point of delivery. <p>When these conditions are met and the Cooperative chooses to meter on the load side of the consumer's transformer, the metered kWh and kW demand will be increased by the estimated transformer losses.</p> <p><u>TERMS OF PAYMENT:</u> In accordance with 200-5 of the Terms and Conditions of Service of the Cooperative.</p>
