

YOUTHPOWER energy camp

May 27 - 30, 2008
Canyon Camp

An experience in leadership -
An experience with energy -
THE experience of a lifetime!

Do you have what it takes to be a leader?

Your rural electric cooperative thinks you do! In fact, they're so sure of it that they're offering a camp designed to help you develop your leadership skills, have summertime fun, and, at the same time, learn about one of this country's most important industries...rural electrification.

Best of all, they've made it the experience of a lifetime.

Join us at Canyon Camp near the beautiful Red Rock Canyon, where you'll experience first hand the exciting world of rural electricity: watch safety demonstrations, climb a pole, watch a co-op crew at work, and tour one of

the largest generating facilities in Oklahoma. Plus, you'll sharpen your leadership skills by working with newfound friends from every corner of the state as you set up and run your own cooperative business.

It's educational and it's fun!

As one of the outstanding young people selected by your Cooperative to participate in the 2007 "YOUTHPOWER" Energy Camp, you'll spend the week enjoying the pleasures the Red Rock Canyon area offers -- from volleyball to swimming and from hiking to our "No Brains Olympic Games"! Best of all, you'll make friendships that will last a lifetime!

See you at camp!
